Catalog Arrangement and Indexes

The bibliographic entries in the *Monthly Catalog* are arranged in Superintendent of Documents classification number order. Each record is also assigned a unique catalog number, which consists of a two-digit prefix representing the catalog year, followed by a sequential number beginning with 1 in the first issue of each year. Within this arrangement, the publications of each Government author are further identified by the name and address of the issuing agency.

Catalog entries may be accessed by the following indexes:

Author index: An alphabetical list of personal authors, editors, co-authors, corporate authors, and conferences.

Title index: An alphabetical list of titles proper, subtitles, and alternate titles.

Stock number index: An alphanumeric list of Superintendent of Documents and other sales stock numbers.

Title keyword index: An alphabetical list of truncated titles, arranged by important words selected from publication titles.

Listings in the **title** and **subject indexes** are augmented with the publications' author and classification number to enhance identification and retrieval. Cumulative indexes are published semiannually, annually, and quinquennially, and in addition the indexes listed above, include a **Classification number index** for all the publications listed during the period of cumulation.

FEDERAL DEPOSITORY LIBRARY PROGRAM

The Federal Depository Library Program was established by Congress to provide free public access to Government publications. Nearly 1400 public, academic, State, and law libraries serve as an information link with the Federal Government by maintaining collections of Government publications. These collections, which are tailored to local needs, are open to the public. Fifty of the libraries are designated as regional depository libraries. They have the responsibility of retaining material permanently and providing inter-library loan and reference services in their regions. They also assist the other depository libraries with the disposal of obsolete material.

Copies of documents no longer available through the GPO Sales Program can usually be found in regional depository collections. A complete listing of regional depositories follows. To obtain a complete listing of all depository libraries, write to:
